Summary

Data Engineer with 1+ year of experience in developing and maintaining scalable data pipelines and ETL workflows. Strong knowledge of Python, SQL, PySpark, and Apache Spark, with hands-on experience in data extraction, transformation, cleansing, validation, and large-scale data processing. Experienced in building reliable data pipelines, optimizing SQL queries, performing data quality checks, and troubleshooting data-processing issues. Passionate about developing efficient and scalable data engineering solutions while continuously learning modern cloud and big-data technologies.

Work Experience

Data Engineer

June 2025 – July 2026 | Pune, Maharashtra

Marca Solutions

- Developed and maintained ETL/data pipelines for data ingestion, transformation, and processing.
- Used **Python, SQL, PySpark, and Apache Spark** for data extraction, cleansing, transformation, and analysis.
- Built and optimized data processing workflows to improve pipeline performance and reliability.
- Implemented data validation and quality checks to ensure accuracy and consistency of datasets.
- Worked with large datasets and performed joins, aggregations, filtering, and transformations using PySpark.
- Optimized SQL queries and data-processing logic for efficient data retrieval and processing.
- Monitored data pipelines and troubleshoot data-processing failures and data-quality issues.
- Collaborated with team members to understand data requirements and deliver reliable data solutions.

Technical Skills

Power BI & Analytics: Power BI, DAX, Measures, Calculated Columns, Power Query, Data Transformation, Data Modeling, Star Schema, Fact & Dimension Tables

Programming: Python, SQL

SQL & Databases: PostgreSQL, MySQL, SQL Joins, Aggregations, Subqueries, Filtering, Query Optimization

Data Engineering: ETL/ELT, Data Pipelines, Data Extraction, Data Transformation, Data Cleansing, Data Validation, Data Quality

Big Data: Apache Spark, PySpark

Cloud & Data Platforms: AWS, Databricks, Delta Lake

Certificates

Data Analytics Trainee | QSpiders Pune

Skilled in SQL, Python, Power BI, Excel, data analysis, reporting, and business applications.

Certificate Link: <https://tinyurl.com/2s443drd> 📄

AWS Cloud Practitioner Essentials – AWS Training & Certification

Completed AWS Cloud Practitioner Essentials training covering AWS Cloud fundamentals, core services, cloud architecture, security, pricing, billing, and AWS support concepts.

Certificate Link: <https://tinyurl.com/5ytmnmmk> 📄

Projects

End-to-End E-Commerce Data Engineering Pipeline

Technologies: Python, SQL, PySpark, Apache Spark, PostgreSQL, Git

- Built an end-to-end ETL pipeline for processing e-commerce customer, product, and order data.
- Used PySpark and SQL for data cleansing, transformation, joins, and aggregations.
- Designed fact and dimension tables using a star-schema data model.
- Implemented data validation and quality checks to ensure reliable data processing.

Healthcare Data Engineering Pipeline

Technologies: Python, SQL, PySpark, Databricks, Delta Lake

- Built an end-to-end healthcare data pipeline using PySpark, Databricks, and Delta Lake to process patient, hospital, appointment, and billing data.
- Designed Bronze, Silver, and Gold layers with fact and dimension tables.
- Developed SQL analytics for department performance, appointments, patients, and revenue.

Education

Kavayitri Bahinabai Chaudhari North Maharashtra University

June 2022 – June 2025 | Jalgaon, Maharashtra, India

B.Sc. in Information Technology

Percentage: 77.61%
